

ECONOMIC DEVELOPMENT

Conservative councillors are working for the future success of our town.

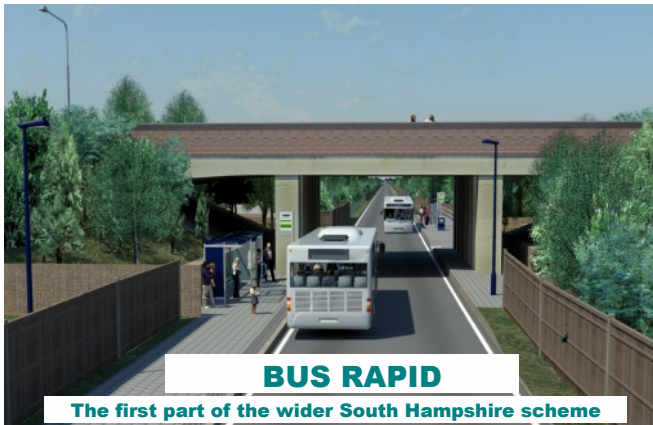

DAEDALUS

Working closely with our MP, National Enterprise Zone status has been achieved to ensure new local employment opportunities for Gosport people.

ROWNER RENEWAL - ALVER VILLAGE

Regeneration to vastly improve the living environment of this former dilapidated estate is well underway and there will be many more jobs created here too.

BUS RAPID

The first part of the wider South Hampshire scheme

£20 million won from the Government at no cost to Gosport council taxpayers to provide residents with fast access to and from Fareham and its railway station.

WATERFRONT

Regeneration plans for the town waterfront are moving ahead that will bring new life and jobs to our town centre.

HASLAR

A planning application for the veterans village including medical facilities is expected in early 2012.

NEW GOSPORT LEISURE PARK

All planning is complete and construction will be starting very soon as a legacy to the 2012 summer olympics.

In these troubled economic times Gosport's Conservative councillors are nevertheless working hard for the future of our town and its residents. With more than half the workforce having to find employment outside our borough, improving the local economy is our prime concern. Many plans in addition to those above are in place and being acted upon, such as the new Gosport pontoon, completion of the superb Alver Valley Country Park, continued regeneration in Priddy's Hard Heritage Area, £5m re-alignment of Newgate Lane with new cycleway and traffic control measures to reduce congestion. There is a huge amount to do and, with everyone working together, prosperity in an improved environment can be achieved for us all. **With your support we can make this**
